MAINTENANCE OF IAS EXPLOITATION EQUIPMENT--BRIEFING

25X1A

Messrs. [REDACTED] PSS, demonstrated to the members the procedures they follow in testing and maintaining IAS exploitation and mensuration equipment.

NIGHT SECURITY ON VAULT DOOR AT 3N111

25X1A

[REDACTED] reported that he checked with [REDACTED] Security and they advised him that if another person from IAS is not available to double check the vault door upon securing for the night, then Security must be called. If Security has no one immediately available to check the vault, they will approve the individual leaving the area with only his signature on the checkout sheet. NPIC Security will prepare a memo for IAS on this procedure.

25X1A

TIMEKEEPING FOR BRANCH CHIEFS AND ASSESSMENT COORDINATOR

25X1A

[REDACTED] announced that the branch chiefs and the assessment coordinator will no longer need to fill out timesheets. Instead, the required time will be accounted for by a system devised by PSS/PB.

INSTALLATIONS DATA FILE (IDF)

25X1A [] reported that IAS recommended [] bring up for discussion at EXSUBCOM the possibility of putting mission index data in the IDF for S.E. Asia high priority targets covered by aircraft missions.

25X1A

EXRAND

25X1A [] reported that information on improvements [] that will have an impact on the Five-Year Plan, will be presented at the next meeting.

25X1A

X-Y COORDINATES

25X1A [] reported on discussions with NPIC concerning their procedure for reporting the X-Y's of target in their first- and second-phase reports. He found that X-Y's [] are computer derived while those [] are PI derived. He advised the members that he will maintain a record of the errors in the X-Y coordinates that we discover in responding to speed letter graphic requests from Headquarters production offices.

25X1A

TYPEWRITERS

25X1A Members discussed the pros and cons of replacing IBM Mag Card typewriters with IBM Executive Mag Card typewriters. There was general agreement in favor of the change with members citing the reduction in the noise level of the Executive typewriter as the principal reason. Improved type was also cited as an additional, but minor, factor in favor of the change. [] was asked to check the funding and training aspects of the new typewriters and report back to the Board.

COINS FILE

25X1A [] announced that IAS inputs to the file were forwarded to the DDI Planning Staff on 8 November. MD had some additional requirements that will be forwarded today.
